Profile

Applied microeconomist finishing an M.Sc. at Cologne, working on causal inference with large administrative data.
Available from October 2026.

Qualifications for this role

- **Economics degree, Germany 2.0 or better, plus a master's.** M.Sc. Economics 1.6 and B.Sc. Economics 1.6, University of Cologne. Top 5 % of cohort, Dean's List.
- **Microeconomics knowledge and experience.** Master's thesis in applied microeconomics, graded 1.0, on the labour market effects of a national education policy.
- **Advanced Excel, and R or Stata.** R for the thesis (`did`, `fixest`, `HonestDiD`) across five million records. Excel daily for two years at PwC.
- **Strong communicator.** Wrote audit reports and management letters at PwC for client and partner readers.
- **Fluent in the language of the office.** German native, English C1 (IELTS Academic 8.0). Suits Cologne, Berlin or Brussels.

Education

University of Cologne

M.Sc. Economics, grade 1.6 (German scale, 1.0 highest)

Cologne, Germany

Oct. 2023 – Sep. 2026

- Applied Econometrics, Causal Inference, Panel Data Analysis, Time Series Econometrics, Microeconomics, Energy Economics.
- 6 ECTS remaining (one seminar paper). Available from October 2026.

Rotterdam School of Management (RSM), Erasmus University

Erasmus+ Exchange Semester. Asset Pricing, Derivatives Valuation

Rotterdam, Netherlands

Sep. 2024 – Dec. 2024

University of Cologne

B.Sc. Economics, grade 1.6. Top 5 % of cohort, Dean's List

Cologne, Germany

Oct. 2019 – Feb. 2023

Quantitative Work

Master's Thesis

Grade: 1.0 (highest). Supervisors: Prof. Dr. Pia Pinger and Anna Person, M.Sc.

University of Cologne

Oct. 2025 – Apr. 2026

- **Estimated the causal wage effect of Brazil's ProUni scholarship programme** across 558 regions over 2005–2019, using the Callaway and Sant'Anna (2021) heterogeneity-robust staggered difference-in-differences estimator with doubly-robust inference.
- **Showed the naive estimate is wrong in sign.** Two-way fixed effects returned -0.65% against a corrected $+3.04\%$, an empirical case of forbidden comparisons (Goodman-Bacon, 2021).
- **Defended the counterfactual:** `HonestDiD` sensitivity analysis (Rambachan and Roth, 2023), Bacon decomposition, age-cohort placebo, alternative exposure cutoffs, and controls for two concurrent policies.

Professional Experience

PwC Germany

Intern and Working Student, Assurance Solutions

Düsseldorf, Germany

Mar. 2023 – Jul. 2025

- Ran variance analyses and plausibility checks for annual and group audits (HGB/IFRS) on clients with balance sheets above EUR 500 million.
- Built KPI tracking and forecasting in Excel for the engagement team.
- Identified business drivers and risks with senior associates and managers, and wrote the results into audit reports and management letters.

Technical Skills

- **Excel:** advanced. **R:** advanced (`did`, `fixest`, `HonestDiD`, `tidyverse`, `ggplot2`). SQL and BigQuery, Python (basic), Power BI, $\text{\LaTeX}$, Git.
- **Methods:** Difference-in-Differences including staggered adoption and doubly-robust estimation, event studies, panel data models, instrumental variables, Bacon decomposition, sensitivity analysis.
