Profile

Economist with advanced R and SQL, two years at PwC on audit engagements, and a 1.0-graded master's thesis built on five million administrative records. Takes a question from raw data to a defensible result and explains it to people who are not economists. M.Sc. Economics, University of Cologne, available from October 2026.

Education

University of Cologne

M.Sc. Economics, 120 ECTS. Overall 1.6 (German scale, 1.0 highest)

Selected Research

Master's Thesis

Grade 1.0/1.0. Supervisor: Prof. Dr. Pia Pinger

University of Cologne

Oct. 2025 – Apr. 2026

- Measured the labour-market returns to a national scholarship programme across 558 regions, 2005–2019, on a panel of five million linked employer–employee records built alone in R through BigQuery, using the Callaway and Sant'Anna (2021) staggered difference-in-differences estimator with doubly-robust inference.
